

## *On-Ramp Program*

The On-Ramp Program is designed to help eligible dislocated workers improve their chances of finding gainful employment. This grant-funded program provides financial assistance to eligible students seeking a degree program or noncredit industry certification program that can lead to employment.

Through the On-Ramp Program, Germanna Community College can help you get the training you need to be more marketable in today's competitive workforce.

**Best of all - your training could be free.**

For more information and to find out about the grant eligibility requirements, please contact our On Ramp Specialist Patrick Hodge at (540) 322-5769 or email [phodge@germanna.edu](mailto:phodge@germanna.edu).
